The 5G Lab

(Funded by the DoT, Govt. of India under 100 5G Initiative)

Empowering

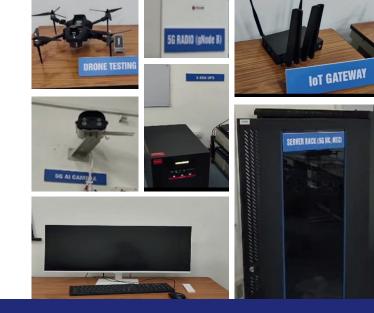

Tomorrow's Innovators

99

"5G is a knock on the doors of a new era in the country.5G is the beginning of an infinite sky of opportunities"

Our Goals

- 5G Training for students and faculties.
- Projects in 5G tech and its applications.
- Industry-Academia collaboration.
- 5G Use case development.
- Offering 5G Test setup.
- Pioneering the path towards a 6G-ready nation.

Pioneering 5G Use Cases

I**nternet of Things (IoT):** Designing and deployment of IoT solutions .

Video Surveillance with High Bandwidth and low latency 5G Technology.

Drone Monitoring and Management for real-time control and analysis.

Smart City Solutions like waste management, traffic control, and environmental monitoring.

Environmental Monitoring and Conservation to protect natural resources and wildlife habitats

Agricultural Automation and Precision Farming

Our Technical Team :

- Prof. Rabindranath Bera
- Dr. Dalia Nandi
- Dr. Pratik Chakraborty
- Dr. Amit Ranjan Azad
- Mr. Amit Kumar Sadhukhan
- Ms. Ramalita Sheet
- Ms. Riya Dey
- Mr. Samim Rahaman

Educational Immersion and Virtual Learning by virtual reality classrooms, interactive simulations and collaborative learning environments

Augmented and Virtual Reality (AR/VR): Develop immersive experiences that merge the digital and physical worlds

5G Lab Coordinator :

Dr. Dalia Nandi, Dept. of ECE

Sanchar Mitras :

- Thejus K
- Nikhil Laxminarayana
- Anujeet Verma

(Sanchar Mitra Scheme is a platform to engage students as volunteers for creating awareness of the various citizen centric services launched by DoT, Gol).
