KALYANI – 741 235, WEST BENGAL**

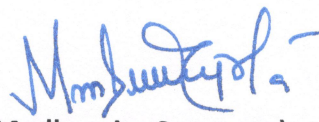

No. IIITK/Notice/1759

2<sup>nd</sup> May, 2019.

**NOTIFICATION**

This is for information to all concerned that several districts in Bengal, Odisha and Andhra Pradesh are likely to be impacted by the extremely severe cyclonic storm 'Fani' over the Bay of Bengal that is expected to cross the Odisha Coast near Puri on Friday, 3<sup>rd</sup> May, 2019 as reported by the national weather agency. Heavy rain is also likely to accompany the storm from Friday night and would continue on Saturday. Weather alert said the wind speeds are likely to increase to around 100 kmph.

I am directed by the Competent Authority to alert all students, faculty and staff members that on Friday afternoon everybody should take their shelter in the respective hostels, houses etc. Due to possible power cut for the facts stated above, the students are requested to keep sufficient candles because Diesel Generator service may not be provided including other general services at hostels. They should also keep sufficient foods and other necessities under their custody well in advance before the storm comes in the event of normal food supply is delayed.
